### Personal

I'm a junior in the Software Development industry and I'm a bit ambitious for wanting to learn as much as possible. I would like to be in a position where I can branch out to more than just what I need to know and to be more hands on. I enjoy having my skills and knowledge tested so I can identify what needs improvement.

### Languages

Spoken/  
Written      English

### Programming Languages

JavaScript	1 year
Html/Css	1 Year
TypeScript	~
Python 3	2 Months

### Education

**Codex / NQF level 5**  
[February 2018 - present,](#)  
[Harrington street](#)

Learnt to use Agile, Javascript, HTML/CSS, and the Linux command line, text editors, debugging tools, Test Driven Development [TDD], Using the DOM , Postgresql, Frameworks, NodeJS and ExpressJS.

**Plumstead High  
School / NSC**

[January 2012 - 2016,](#)  
[Plumstead](#)

### Technical Skills

- Linux terminal commands
- Test Driven Development
- Version Control using Git & Github
- Google Developer tools
- Document Object Modules
- Server Side Testing
- Using ExpressJS
- Using NodeJS
- Templating engines[Handlebars]
- Frameworks [i.e skeleton, etc]

### Work Experience

**Department Of Home Affairs/Technical Support Learnership**  
[April 2017 - January 2018, Barrack Street](#)

- Software Installations
